THE RESORT

This special place has been designed from the very outset to be “a different kind of resort“ only a minutes from Ubud center.. To begin with, it has been designed to be small and intimate; only sixteen dwellings Twelve in the lanai style and four Villas. It is an escape from the modern world. Away from television, away from radio, and even away from telephone, if you wish.

Waka di Ume has been operating since 1995

THE ARCHITECT

I Ketut Siandana is a Balinese Architect as well as a director of the hotel and it is his creation. To people who know him, he is a visionary-the new generation of Balinese, the hope for future, if Bali is to retain its special magic, a traditionalist whose vision is to present the Bali experience in an unique way. He believes. Waka di Ume gives visitors a chance to experience this and the many guests who have stayed there agree with him. You are in rice fields, you are part of the culture, you have been transported to another place another time-the Bali you came for.

THE ROOMS

Your room has been created to combine traditional Balinese esthetics with modern style and comfort. The materials are local stones, folk-weave fabrics, cane bamboo and weathered wood. The atmosphere is spacious and generous, cool and inviting, informal and relaxing. The lightweight cotton robes and comfortable sandals are for you to wear wherever and whenever you are in the resort. The canopied bed allow cool breeze to waft around you, while deterring the occasional mosquito. The bathrooms, sunken bath with hot and cold water and their views into private courtyard gardens, enhance the feeling of freedom and naturalness.
